

Borders

1. Fold each border print in half, dividing the mirrored-imaged sections into two equal halves. Press on fold.

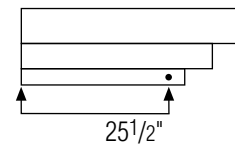

2. Fold border 2 in half. Press on fold.

Matching the folds, sew the three borders together as illustrated.

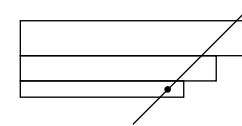

3. Fold the quilt in half, and measure across the middle. It should measure 25 1/2". If your measurement is different, use your measurements for the following steps.

4. Fold the border unit as shown. The design motifs should be exactly the same on both and should be precisely matched. Measure 25 1/2" from the center fold. Place a dot a 1/4" up from the bottom edge of the border.

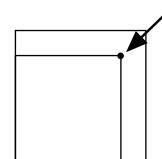

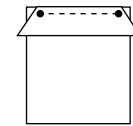

5. Lay a ruler with the 45° marking along the top of the border and the edge of the ruler through the dot. Cut.

6. Match the center of the border to the center of your quilt. Sew the border to the center of the quilt. Sew the border to the quilt (do not sew through the seam allowances).

7. Sew miters last, carefully matching the design motifs. Sew to the dots (do not sew through the seam allowances). See pattern cover for illustration of completed borders.

Fabric Requirement Chart

Fabric Swatch	Fabric #	Style #	Description	Yardage
	1	4459-1	High Desert Border	2 1/2
	2	4461-3	beige Canvas	17/8
